Premium Hand Tools

Ever since, 1979, the company has been manufacturing PRECISION (in its metonymy terms) and HIGH CLASS QUALITY HAND TOOLS. We have all along been dedicately involved to serve a large number of recognized brands for the last more than 30 years.

The skills of Management lies not only in day to day multiplying its business but to retain the very values of business in terms of "GOOD WILL" and CUSTOMER'S SATISFACTION. This very fact stands proved from the rolls of its WORK FORCE. This majority of our workmen has been as old as the unit itself and has tenaciously been working for the company as its integral part.

WHAT IT SPEAKS AFTER ALL? It tacitly speaks of Business Qualifications coupled with invincible experience and intellect of the "MANAGEMENT".

Any businessman with a little business acumen will acquiesce that "IT IS EASIER TO BUILD UP A HOUSE CUM HOME BUT DIFFICULT TO MAINTAIN THE SAME WITH SAME INITIAL enthusiastic SPIRIT AND STILL MORE DIFFICULT TO RETAIN THE DIFFERENT INGREDIENTS gladly and willingly TOGETHER CREATING THEREBY HOMELY and CONGENIAL ATMOSPHERE without the support of required VERSATILE AND VARIED WIT.

It could become possible with us only for the Management knows and has been affording full material and job - satisfaction to its vertebrate elements like, work force, customers, supporters / suppliers and its all other ancillaries.

Primarily, when 'ESS ESS FORGINGS' was set-up, it was tiny unit over a period of time HAPPY MACHINE TOOLS - with similar production plans and programs - came into being as its one of the ancillary units. In both of these units, we have been producing and supplying HAND TOOLS, Spanners, Wrenches, Pliers and More.

SUNIL GOYAL
Managing Director

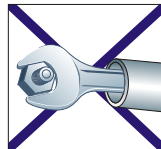

INDEX

Combination Spanners	04 - 08
Combination Spanners (Shallow Offset)	09 - 11
Double Open End Spanners	12 - 15
Bi-Hexagon Ring Spanners	16 - 19
Obstruction Wrench (S-Type & Half Moon Type)	20 - 21
Flare Nut Wrench, Torx Double Ended Ring Wrench, Stubby Wrench	22
Packaging	23 - 27
Automotive Tools	28 - 31
Wrenches	32 - 33
Pliers	34 - 35
Cutters & Pincers	36
Wrecking Bars & Chisels	37
Hammers	38 - 39
Lubricating Tools	40 - 41
Carpentry Tools	42 - 43
Vices	44
Hacksaws	45
Agriculture Parts	46
Infrastructure	47

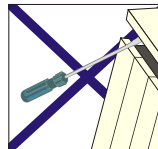

WARNING !

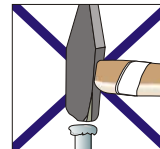

Do not use metric wrenches on imperial bolts & vice versa

Do not use extensions to increase the applied torque (especially on wrenches)

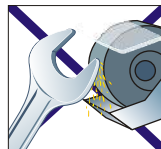

Do not use any tool as a lever, chisel or punch if not designed for this purpose

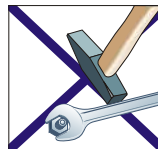

Do not use worn out or damaged tools

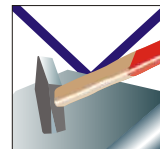

Make sure that tool size correspond to the size of the part to be operated

Do not modify tools

Do not strike tools to increase power if not designed for this purpose

Do not use striking tools on surface harder than the striking face
